“ I agree wholeheartedly with Oscar's words on the tribute page and cannot say it better. Mr. Pratt was obviously loved very much by his family, and his integrity, values, and service to the public and our Veterans live on in Tyler.

“ What a beautiful tribute. I know I have not known you and Dan for very long, but I felt like we were friends before we ever met in person. I am here if you need anything Daphne. Sending love and hugs your way. Linda Kress-friend and neighbor.

“ I never met Mr Pratt but I work with his son - who is one the best young men I have ever had the pleasure to be associated with. He stands as a tribute to his father and honors him with his service to our nation's veterans and his kindness, integrity, and generosity to his family and friends. I am sure these qualities were engendered by his mother and father, exemplifying those qualities he learned at their feet.

“ I remember my uncle Dan most by the way he made me laugh. He was always joking and doing whatever it took to get me giggling. Many times I remember visiting when Tyler was little, and he would burst into the room and tell a bad joke, or just do something funny, and leave us in stitches with laughter.
Bye, bye, Uncle Dan, keep telling those silly jokes, and get the angels giggling!
