“ Anita was a friend she was kind ,she loved her cats. She loved her Harry Potter and Star Wars and she loved her dragons. She was like family I've known her for many years she will be missed terribly, but never forgotten. We had times of laughter and tears shed together lots of great stories, in these last days, she fights so hard until she could not fight no more she was a fighter was not willing to give up as her body was starting to shut down on her. She did not want to give up, but she is out of pain and she's in a much better place , one day our paths will cross again in that better place rest in peace, my friend Anita Seawright love from the Castillo family

“ One time we were dropping my husband off at work. And Anita said look there is a squirrel sitting on a chipmunk. She was so adamant about and she kept repeating it over and over again. In reality it was a squirrel sitting on a bench. We had a lot of laughs over that. Anita was one of the most caring and kind hearted person you would ever want to meet. She was a huge part of our family and she will be missed
