

Antionette B Kimball

March 7, 1941 - January 1, 2021

Antionette (Toni) Kimball left this earth on 1/1/2021 to reunite with her mother and father, family and friends, after succumbing to complications from infections brought on from surgery. Toni leaves behind her soul mate Richard Mahar, 2 children; James Kimball and Michele Shuler, 3 grandchildren 2 great grandchildren, 5 siblings, nieces and nephews.

Toni was a retired math teacher, who loved teaching because she also loved learning. Additionally, she was a songwriter, book writer, rose authoritarian and collector of many things; a little of this, a little of that, and a lot of everything. More than anything else, her largest collection was friends. She would start a conversation with almost anyone, anywhere, and once the connection was made, she added to her collection - a new friend for life. I expect it will be no different on the other side. Godspeed, Mom.

A gathering for the celebration of Toni's life is being planned for later this year to be announced at a later date.

"We are not human beings having a spiritual experience; we are spiritual beings having a human experience."
