JS

“*Dave was quite a mechanic. My first memory of Dave was when he was a crew chief stationed at Lincoln AFB. He brought his brand new 1965 Mustang by our house. He was already tweaking the carburetor. Years later we shared the maiden voyage of his 1974 Vette, which according to Dave the last good year for the 454. It was amazing what Dave could do with an engine. He excelled at the police academy and was held in high regard among the other FHP auxiliary officers. I will always hold dear my many memories of Dave. I shall keep Leslie, Lisa and Lil' David in my prayers.*”
