“ Duke has another Paternal Child. Me, Tammy M Stanton. I've spent more than half my life trying to find him. When I was 18 years old and I saw him at his mother's wake, he told me he would never leave me again. Then I never found him again. Reading this knocked the wind out of me and brought me to instant tears. The fact that he didn't tell anyone about me. He was married to my mother. I have a relationship with his other children, Lisa and Bobby and his grandchildren/great grandchildren up here in NH.
