“ *Rip Elisabeth. I wish I had known you in your later years. Your talents always fascinated me and I thank you for the gorgeous Barbie clothes.*

“ *Elisabeth was my brother Duane's wife whom I met first as a child. I was fascinated by her because of her beauty and that she was from Germany. She seemed to like me and our affection for each other grew over the years, although we were not able to see each other often since they lived in other states. I wish I could have known her better because she must have had an interesting life; I'm sure I could have learned so much from her. One thing I know is that she was very proud to become an American citizen and we were proud to have her in our family.*

“ Ms. Elisabeth, you were such a special person we all knew you as MOM. I will miss you so much but you are in a better place now so I will have to deal with your passing the best I can. I can close my eyes and picture you the first time we met for pizza. Remember what we said to each other? That was so funny :) I fell in love with you that night. I will miss our outings, but when Gail and I go you will always be with us. Please look down upon Gail and be her Guardian Angel. Rest in peace my friend. I love you and will never forget you.

“MOM, you were there when I needed a home and someone to call mom. You were there for my first day of school. You taught me every craft I can think of, and now I am an artist. You had us play games at least one night a week. When our hands were too small you had us use this round thing to hold all the cards. We had pets that ran, jumped, swam, slithered, and flew. You helped people whenever you could, You had several business endeavors. You knitted, crocheted, and sewed clothes for your family, and toys. Tanya had some of the best dressed Barbie dolls I've seen still to this day. You were there when my son was born and gave him his first bath. As I grew I flew and traveled many countries and lived several places but let me know I was welcome home when I wanted or needed. And in our last few years we became pals, buddies, we had lots of fun. I know it was hard in the end but I made sure I followed your wishes till the end. Your job is done, there is so much I have not touched, you were a survivor and touched so many people. Now I must go on without you and I will, but I can't help looking for you over my shoulder, are you there mom? I guess I will never know for sure, but enjoy that dance with dad and I will see ya later.
