“*Esther was a very special person in my life, was my mother-in-law, taught me a lot of things when I first married and came to Florida with John in the early sixties. When she and I did things together, people thought she was my mother. When she found the Lord, we had lots to talk and share. She and I could always spent time talking and discussing about most anything, some times we agreed and sometimes not, but that was okay. Once we shared a ceramic class together, she made this lovely tall vase for her boss at the time. She had a love for horses, even took riding lessons once. Always there was a cat on her lap, she and Larry loved cats. She loved cooking, loved having people over with Larry doing barbecue and swimming in their pool when they lived in Ocala, all grandkids loved their Granny, as she was known by all the family. We loved her and will miss her smile.*”
