“ Love you a lot. You will forever be in my thoughts and in my heart. Every day that passed by without seeing you or hearing your voice is an empty day of your presence glooming with sadness. I know that I have caused you pain with my actions during my growth in becoming a man. Pain that only a mother's love can endure and forgive for her son. If time allows us in the future to cross path and I have to choose a mother again, you are the one I would choose because of your love, gentleness, kindness, presence, beauty, selflessness, caring, giving, tenderness, and forgiving. You are greatly Love and Miss.

“ *Mother, I love you. I missed you more than words can say. Our family chain is broken and it will never be the same without you. I know that you were tired and was ready to go, and you know that Daddy, me Eric and Dezmond we did all that we could have done for you Saturday to make you more comfortable. You were my best friend, my sister and my PERFECT Mother. You lived a good life and I'm very happy your last days with us, I was able to give back to you, not as much as you have done for me. M heart is heavy and I know you know that I love. Sleep my mother, sleep and take your rest. LOVE YOU, Your ONEY Colleen*
