“ *In loving memory of Gene Wyckoff, Gene lived alone & had been gravely ill. He managed Gold Bond Ice Cream plant in Ocala, FL. A buyout by a company in Netherlands, misplaced long term employees. Ocala plant was closed. Transfers to Henderson, NV (Las Vegas) and Green Bay, Wisconsin where Gene was from originally, were available. Employees separated due to lack of locations. Gene loved Ocala. Ed (Freezer Dept) died in Las Vegas area. Gene informed me of this. On Feb 18, 1989, We, my husband, Gene and his wife traveled to Orlando to see our first George Strait concert. That night after the concert, we discovered that Gene had locked the keys in the car. lol It was great fun. We were eventually on the road home after the guys broke into Gene's car.. :) We had a wonderful time that night at the concert. Gene is missed by his family, extended family and friends. Cathy*
