“ My condolences to the Shuman family: When one losses a loved one we ask, "Will they live again"? The Bible writer Job asked the same question please read, Job 14:14-15. The scriptures also assures us that God is eager to resurrect your loved one who is now sleeping in the grave. Notice another scripture, 1 Corinthians 15:26 shows that God views death as an enemy. May this be of comfort to you at this time of your loss.
