“ Yesterday I came across a lady that not only resembled you but had your great personality like you as well. She was so helpful and made sure I was safe every step of the way. When I got to my car I called my mom and told her about this lady and she said, “God sent you an Angel” I said, “yes he did”. Was it a coincidence? I don’t know 🙏👧♀️ But I will take it. I miss you so much Gloria! ❤️

“ Not a day goes by without you on my mind. No matter the time of day you are in every thought, I miss you so much mom. You are My first thought every day when I open my eyes and my last thought before they close them with tears in between. My world is a different place without you here. At times I feel lost but I hear you talking to me, I can feel your hand rubbing my face telling me "everything is going to be okay baby, you are my girl, you can do it & I am always going to be right by your side, I am your Angel". The pain might ease but the ache will never go away. Keep Flying High  I Love You!

“ When you left this world you took a piece of us with you and you left a piece of you with us. You impacted each and every single one of us in positive ways. I hope you know just how much you are loved and how much we miss you everyday! This has been a tough journey without you. Your beautiful face and smile and all that you are makes me smile and cry all at the same time. It helps elevate some of the pain of trying to accept that you live only in our memories. I love you so much and you will never be forgotten.
