“ As a freshly minted paramedic at Killarney Fire Control District, Jan gently coached me through numerous medical calls in 1978 and 79. Many of those events were obscene trauma incidents where his calm demeanor improved the scene dynamic while the patient was being transferred to his care for Herndon Ambulance transportation. Nice to read his was a life well led.

“ A beautiful and fitting tribute. I remember Jan fondly from the "way back days" when I worked for Orange County EMS and OCFRD. He was a gentleman and a fine paramedic. May you find peace in your sweet memories. Prayers for you and the family.

“ Please remember Jan by
Extending a hand
Reaching out to someone you don't know
Being kind when it's not easy
Assume the best
Take time to really listen
Know there is always reason to smile
Lift up

“ Jan was gentle, kind, loving, a peace maker, strong yet quiet and a great listener. He had a dry sense of humor and could be quite a jokester. He loved his family, church, cats, dogs, WV hills, good music, vinyl records, farm life, a good detective book, football and nascar (not always in that order). True to being a paramedic he believed helping those who were harmed or in trouble but was quick to point out "you are fine" if that was the case. He enjoyed eating at fancy restaurants and Pearls barbeque equally as much, cooking for others and making his famous carrot cake, mushroom soup and cookies. He loved visiting the big cities, going to concerts and symphonies but then heading back home to the country to relax in his chair to read, When you ask me what can you do, please remember Jan by Extending a hand Reaching out to someone you don't know Being kind when it's not easy Assume the best Take time to really listen Know there is always reason to smile Lift up Love More Thank God for life's blessings
