“ Hello my friend this is Mike also known to you as Henry. I found out just today about your passing. My birthday just passed and I missed your text message this year so I knew something had happened to you. I am sorry about our friendship growing apart the last couple years. I want you to know that I think of our adventures together as kids and young adults often. You had a profound impact on my life with many's good times and Laughs of course. You were a wonderful and good hearted person and will be sorely missed! Your friend for eternity. Mike aka Henry or Roids to you.
