“ Matt and I we're friends at a young age and became brothers. I'll never forget playing in our band with Matt and all the time we spent just writing music that meant something to us. We always wanted our music to mean something. I'll never forget painting bikes and building race cars with him. But my fondest memory was our comedy video that we made together, we loved seeing his dad watch this video over and over laughing so hard every time! Matt and I could walk into any situation and make it a comedy show, he brought the best out on me and I will forever cherish the memories that we made together. You will always be missed brother and I'll see you again someday.

“ *It broke our hearts to loose you ,
But you did not go alone.
Apart of us went with you
The day God took you home.*

*If tears could build a stairway
And heart ache make a lane
We'd walk our way to heaven,
And bring you back again.*

*In life we loved you dearly,
In death we love you still,
Our hearts you hold a place
No one could ever fill.*

“ *Uncle Matt, you and I have grown up together. We were more like brother and sister. I will carry so many great memories that I have with you. You are one of the few people in this world with the gift of laughter. You knew how to light up a room and really bring joy to those around you. I will miss the jokes we had, the way we would tease each other and Ma all the time, and simply just waiting 40 minutes at all our family events cause we were always waiting on you who never failed to show up fashionably late. I walk this earth with some beautiful tattoos you did for me and as special as they already were, they now mean so much more. I love you so much.*
