PH

“*Maureen and I were fairly close in high school, hanging out together after school. I so admired the antique piano bench in their Spring Lake home that her dad surprised me one day and gave it to me! That beat up old bench still ranks up there as one of the best gifts of my life! I refinished and reupholstered it and treasured it for many, many years. We both followed degrees and marriages and careers to different states and eventually lost touch. Through the "miracle" of social media we reconnected several years ago. I hadn't seen a post in a while and started messaging her in June to see if all was well --with no response. I was so saddened to find this page. She was a warm, witty, deeply private and highly intelligent person. I will miss her greatly. My deepest condolences to her close friends and family!*
