“ I would like to express to you my husband's and my condolences to you and your family. He was my husband's surgeon following an accident. He saved Iorand's leg and we had so much confidence in him. He spoke of his family often and with much love. He was the only surgeon I have ever known to hop onto a table and demonstrate physical therapy type exercises! We are so sorry for your loss. “ Dr. Riley was an amazing Dr. He took care of elderly mother when her hip fracture. He was so caring and took the time to reassure us that she would handle the surgery and would be up and moving. A couple years later she broke the same hip and once again he was beside us assuring us she would be fine. I cannot express how sorry I am that he was taken away from his family, friends and the people that he took care of. God bless you Dr. Riley. You will be missed.

“ Dr Riley was one of the kindest physicians I've ever met. When my son broke his arm severely during football, he required surgery. Dr Riley made us feel cared about and comfortable. With a 1 inch screw in his elbow, my son made it into the Army, all because the work was perfect and the placement as well. My point of telling you that story, is to let you know what an impact he made with patients and their families. He was a good person, and it showed in his work. I'm so terribly sorry for your loss, and my prayers are with you all. May the Lord comfort you.

“ *As many are, I remain shocked and saddened at the passing of your husband, father, brother, friend and my trusted orthopedic. He was a wonderful man who "fixed" me several times including knee and shoulder surgery and was going to do my knee replacement in early 2016. He will be missed by many and this is a great loss to all who knew him. My heart goes out to you all. I was afraid with every surgery and he told me, don't worry, if anything happens we will see each other again in a place in which fixing is no longer required. Dr. Riley ~ I look forward to that.
