Tribute Wall

“ *When we were all young, young and kind'a wild, we were all carefree - adventurous and happy in life. Peg and Art always belonged together, always.*

It started out as a giggle, a fun date, throw caution to wind, what the heck! Let's go. But it became so much more. It was easy to see they both were falling... falling in love for the rest of their lives, and that's exactly how it happened, like a match lighting the next match, and on and on.

Years and distance has passed us by now.

One spark turned into a bonfire of love. Love that had no bounds for Peg and for Art. A lifelong, one-time flame that never-ever went out.

To - Shelly Kerr, Art III, Kelly F., Robert S., Casey E., Kevin, and grandchildren - Benjamin, Jacob and Lennex - your mum, ma, mother, grand'ma, grandmother, nanni, or whatever you called her, loved her role in your lives. She was the best in the world at it, wasn't she?

I know, because we knew her to be that kind of person; that kind of wife, mother and grammie.

You'll always have the memories, the laughs, the hugs, the dinners, the drives with mom's advice, the reminders not to forget something. You'll always remember the helping-hands she so often gave freely, the encouragement and the wisdom.

Remember?

.... wisdom from Mom, it's worth a million-bucks, and all we have to do to get it is... listen.

Remember too.... you'll be able to recall Mom's wisdom any time you need it. Just close your eyes and she'll be there.... smiling doing what Mom's do and loving you at the same time.

God bless you Peggy Kerr Stack, you have our love for you, ... for Art, ... for the children and their children, always.
