“ I only knew and corresponded with Richard on Gameknot, an online chess site. We had quickly become friends and considered each other worthy adversaries in the game. I know he was ill but when I saw he had not been on line in 5 months I was worried. We had many games where we had played in real time and we shared many laughs and conversations in text over all kinds of topics especially the Buffalo Bills. It is my great regret to hear of Richard's passing. May you rest in peace Richard as you find your place with the King of Kings. I will miss you my dear friend! Roberto
