“ Shirley, deep down you had a wonderful disposition and full heart. You were a true friend to Mom and I, and for that I will remember you always. Your laughter was contagious, despite the challenges you encountered on your way. Our road trip was one of my life's most amazing adventures...and now I know you are home. My gratitude to everyone who helped you at the end of your life---you were loved my dear. Be at peace now, your work is done. May the light that is all life shine upon you and yours...and please give Mom a hug for me, and behave yourselves. I am watching...and will see you again. I love you Shirley.
