“ Dear Shirley I Know that there where times when we didn't get along in some ways. However I felt we where close up to the time of your passing and I know that not many people know this however I got my last wish that wanted before you passed on and that was to spend your last Christmas you where alive with you. I Know there was things that you didn't want to tell me when you where alive however as time as gone on and as people and things change and go on with life. I have to moved on with my life I still have things that I remember about all the talks we had. However that's what gets men through the good and the bad and even though its been 5 and half years. Its been hard in the start when you passed however I have moved on and started living life. However I hope one day I will see you again. however until then I will live life to the fullest. Thanks for everything R.I.P I love you always and forever. Your Grandson Mikey
