“ I wanted to share my deepest sympathy to your family. I am a co-worker and friend of Steve's . I had the privledge of getting to know him very well over the last year of work.I helped train him on some machinery and he was my go to guy when I needed some uplifting. It was very easy to go from mad to glad quickly when hearing his infectious laugh and great drywall blooper stories. I shared alot of thoughts, problems and stories with him , as he was always willing to lend a ear. He also spoke of his family alot. I do not know his daughter personally but know he was very , very proud of her life's acomplishments and was very thrilled with her engagement and upcoming marriage. His love for her and how proud he was of her was often his topic of conversation. I along with many miss him alot here at work. He will be missed , never fogotten, and surely good advise remembered when I tackle my upcoming drywall home projects that he taught me the tips and tricks and ways to fix problems. Steve..You were one of the few "I AM HONORED TO CALL A FRIEND! " co worker and friend, Jose Espinosa
