“ I met Susan through Farmville decades ago when sharing neat tree was the cool thing to do. We lost touch a few years ago & during my search to reconnect with her, I found out she has passed. She was such a sweet soul. Rest easy Susan, I will always remember you for all of your kindness & encouragement when I was going through a hard times. I still have your book & I promise as hard as it is to get through emotionally, I will make it a point to finish it. 🕊️📖

“ I met Susan in Oregon when she lived up here with her son and daughter-in-law and we continued a wonderful pen pal relationship when she moved to Florida. I would send her artmail and she would type lively, long letters back. A wonderful person, I will miss her friendship and am grateful to have known her if only for a few years. Did I mention her photography and books she authored? So talented and kind hearted. Love & Blessings to the family and the many people she knew and cared about. Love to Baxter and Rick. I know she is in God's house and the physical pain is gone. Namaste, Bo & Wayne & Gigi

“ Susan was my spiritual buddy. We would give readings to each other both here in portland and then in Florida. I am sending her lots of bliss.
